

CORPORATE PROFILE

Wesley Clover Solutions was formed to meet the growing demand from the institutional financial trading community for expertise in managing the transition from legacy to next-generation voice communications. We help customers realize the potential of new technologies while reducing costs, complexity and risk.

Wesley Clover Solutions has introduced a groundbreaking approach featuring a single, integrated voice platform for financial traders and general office staff that offers unprecedented flexibility, scalability and resilience. We combine this specially engineered, high availability voice communications infrastructure with a global presence enabling us to deploy and support customers wherever they may be.

Products and Services

IP Turrets & Speakers

Wesley Clover Solutions has the only IP voice communications solution that supports all of a financial trading firm's requirements in a single platform that is resilient, scalable and flexible. The solution can be premise-based or hosted remotely and can be combined with an IP-WAN to create a clustered voice environment connecting the entire enterprise securely and seamlessly while simplifying management and growth.

IP Telephony

The Wesley Clover Solutions platform incorporates a market-leading IP-PBX with more than 500 features and functions as well as productivity applications and awardwinning IP phones. Our solution completely integrates PBX and trading turret capabilities into a single system.

Voice Recording

Wesley Clover Solutions offers financial trading enterprises a comprehensive voice recording solution to address any application including: regulatory/compliance recording, trade dispute resolution, quality control, internal audit and Call Center. Our platform ensures the highest levels of reliability and security to meet the unique needs of financial institutions.

Financial Connectivity

Financial trading firms depend on having always-on network connectivity to financial exchanges, market data sources, customers and counterparties in order to operate. Wesley Clover Solutions provides needs assessment, design, sourcing & negotiation and a range of voice and data connectivity solutions to customers.

Implementation & Support Services

Wesley Clover Solutions provides a complete range of implementation and support services available directly and through partners throughout the USA and around the world.
